Education

Ballari Institute of Technology & Management, Ballari, Karnataka. *Expected Graduation: June 2027*
Bachelor of Technology, **Artificial Intelligence and Machine Learning.**
CGPA: 7.53/10.0
Coursework: Artificial Intelligence & Machine Learning | Software Development | Natural Language Processing | Data Structures & Algorithms | Cybersecurity | Cloud Computing | Database Management.
Professional work:
Developing intelligent systems by applying expertise in Artificial Intelligence & Machine Learning, Back-End Software Development. Gained hands-on experience through projects integrating Software development, backend development, and AI Model deployment.

Work Experience

EZ Training and Technologies PVT LTD *April 2025 - June 2025*

Developer Engineer Intern - Built a container deployment manager enabling CRUD operations for Docker containers - Highlighted the role of containerization in improving portability, resource efficiency, scalability, and security.

Projects

Award-Winning UiPath RPA Project – Developed an automation solution using UiPath to reduce manual work and improve process efficiency. Contributed to workflow development, testing, and bot implementation.

Mini Project – Road Damage Detection System - Developed an AI-based system for detecting potholes and road damages using image processing techniques. Improved accuracy in identifying damaged road surfaces for smart transportation and maintenance applications.

Major Project – Intelli Cool Smart Cooling System - Developing an intelligent cooling and monitoring system using sensors and automation techniques to improve airflow efficiency, temperature control, and system performance.

Skills and Certifications

Programming Languages: Python (AIML), Java (Basics)
Tools & Platforms: Visual Studio code, pycharm, Android studio, Eclipse, Git &Github.
Cloud & DevOps: AWS (EC2, S3, Lambda, RDS), Docker, Netlify.
Certifications : Salesforce Certified Platform Developer.
